General Information: Tippah County Lake, opened in 1974, has a surface area of 145 acres. Known for its large Redear Sunfish and Bluegill, the lake also supports good populations of Largemouth Bass, catfish and crappie. The lake currently boasts the state record Redear Sunfish at 3.33 pounds, and at one time produced the state record Largemouth Bass of 14.75 pounds. Overlooking Tippah Lake is Wicker Mountain, the 2nd highest peak in Mississippi.

Location: Approximately 2.5 miles North of Ripley off Hwy 15.

Fishery Management: Largemouth Bass, crappie, bream, and catfish.

Fishing Tips

Largemouth Bass

- Target lake points with Carolina or Texas-rigged plastics or small crankbaits.
- In the spring, fish the back of coves with spinner baits.

Crappie

- Target lake points and sunken brush with small jigs or live bait under a cork.

Bream

- Fish similar areas as crappie tightlining redworms and crickets. Fish gravel beds near the boat ramp and campground during spawning season.

Catfish

- Target cats at night on the shallow flats near the campground or old swimming beach with cutbait or liver.
- During the summer, fish creek channels and near the dam.

Below: Tippah County Lake record fish. Record fish must be weighed and verified by the lake manager, lake supervisor, or fisheries biologist. Anglers who catch a lake record fish will receive a certificate acknowledging their catch. There is no minimum weight for any open lake record. Tippah County's Redear Sunfish record is also the state record.

Above: Creel surveys provide a good opportunity to collect information and opinions from anglers. Fourteen percent of anglers interviewed had been previously interviewed which shows that we have many new customers. Tippah County Lake hosted anglers from 9 different counties in Mississippi and 2 other states with the majority of the anglers being from Tippah County (52%). One third of the anglers used MDWFP fishing reports to plan their trip. If anglers answered no to this question, they were told where to find them, and that they are updated weekly.
