

Join MDWFP's Mississippi Museum of Natural Science for a Special
FIELD TRIP

OCTOBER 13
10 a.m. – 12 p.m.

Celebrating Mississippi's Fossil Heritage

Meet a Mississippi paleontologist, discover the state's fossil history with a museum scavenger hunt, dig in the "Red Hot" for *real* fossils, and see the official state fossil (*Zygorhiza kochii*), as some of the exciting, interactive stations, around the museum.

Although National Fossil Day is officially October 11, we are celebrating on *Fossil Friday the 13th!*

In addition to the special activities, experience the **BE THE DINOSAUR : Life in the Cretaceous** exhibit. This groundbreaking fusion of video technology and traditional exhibits features full-size dinosaur bones and scientifically accurate computer modeled dinosaurs. A world-class advisory panel of paleontologists and interactivity experts collaborated in the exhibit's production, allowing you to experience this lost world – singularly or as a group – with easy to use controls.

\$6 for adults, \$4 for children ages 3 and up. Under 3 are FREE. *Groups rates available.*
