

BASIC HANDGUN 200 CLASS: (2 hours of lecture, 3 hours of shooting on the firing range, and 3 hours of learning how to take apart, clean, and maintain your firearm.) This course of instruction is a natural “follow on” to the *Basic Handgun 100* course. It gives you, the student, an opportunity to practice, under an instructor’s watchful eye, what you’ve learned in the *Basic Handgun 100* course, with your own firearm, then, *very importantly*, you’ll be taught how to take down, clean, and properly maintain your firearm.

Students are required to bring: Your handgun, a *minimum* of 200 rounds of ammunition for your handgun, a rigid gun belt (that won’t flex and ride upward, as the firearm is withdrawn) and holster to fit *your* handgun, eye & ear protection, staple gun (for hanging targets), and a cleaning kit that fits *your respective handgun*. The cleaning kit *must* include: a cleaning rod, a jag or slotted tip, a bronze bore brush, cotton cleaning patches, Q-tips, cotton pipe cleaners, a cotton cloth to wipe the gun down, a towel (at least 12 inches x 24 inches in size) or a commercial cleaning mat, bore solvent, and gun oil.

COST: \$17.⁶⁶
