

Delta National Forest (Sunflower WMA) Flooding Plans for 2016-2017

Water control structures will be closed for catching rainfall in the following areas:

- Green Ash GTR (#3)
- South GTR (#8): Northwest side
- Redline GTR
- Slough control areas include 2 areas north of Dummy Line road (Dummy line and Yellow Jacket), Rookery Lake close to South GTR, String of Lakes on 717 Road, the beaver pond on 706, and the Long Bayou enhancement area across from Long Bayou.

Note: Originally, Long Bayou was scheduled to flood this year, but the main structure failed and is under repair.
