### Fishing Tips

#### Crappie

Use minnows or green and black jigs in 6 to 8 ft. of water near structures and around overhanging limbs

#### Largemouth Bass

Use soft plastic lures like flukes and worms fished slowly near woody cover in 2 to 6 ft. of water. Junebug or red colored plastics, Carolina rigged, seem to be good choices

#### Bream

Use crickets in about 2 to 6 ft. of water. The front of the spillway and along the dam are always good places to try.

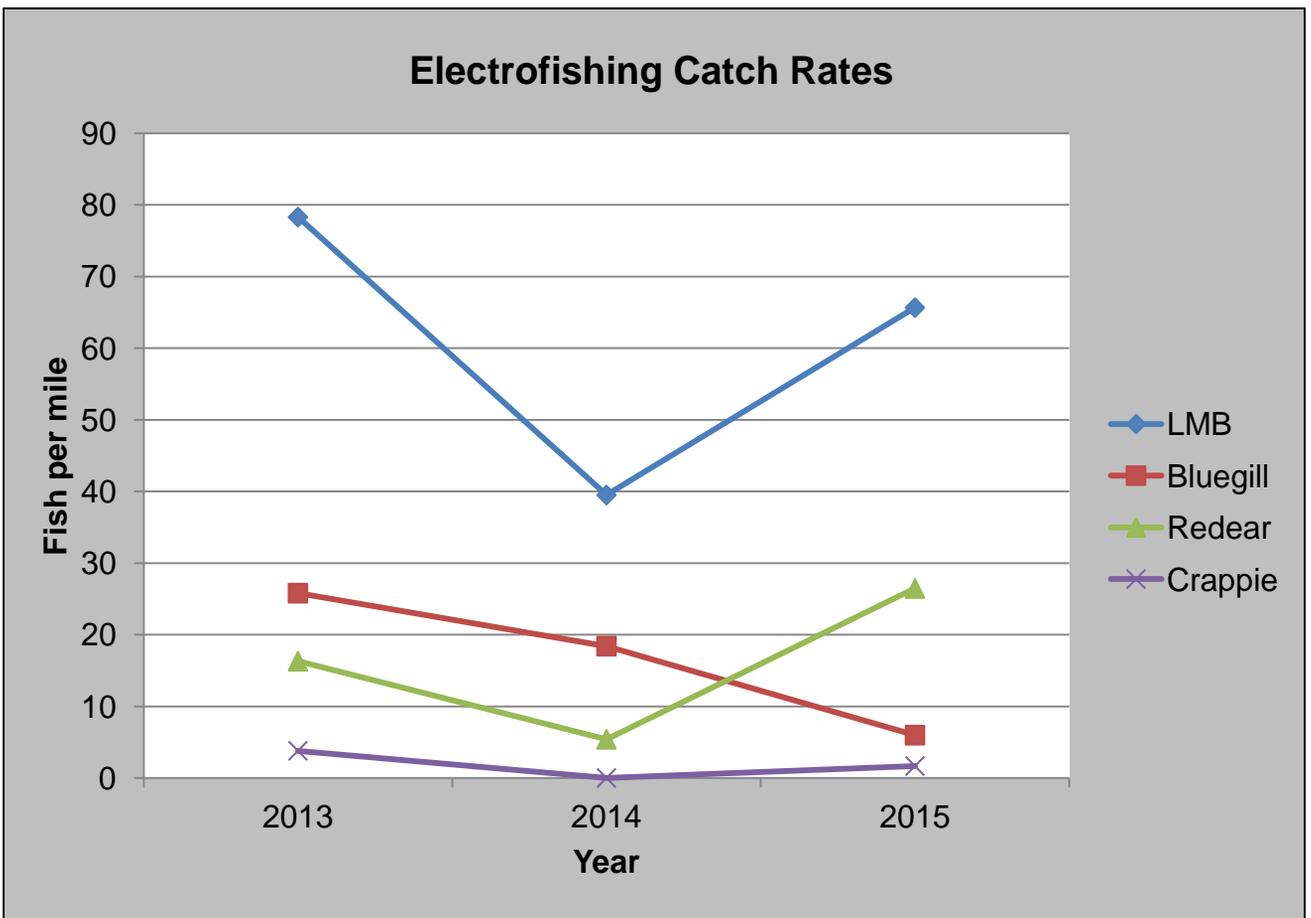

#### Catfish

Use pungent baits, such as liver, to attract catfish.
