

## Other Recreational Opportunities

### Wildlife Viewing

Mississippi's Wildlife Management Areas have a diverse array of wildlife species and provides ample opportunity for viewing anything from Black-necked Stilts on Howard Miller WMA to alligators and swallow-tailed kites on Ward Bayou and Pascagoula WMAs.

### Hiking

Many of our WMAs provide nature trails suitable for hiking or taking a relaxing walk in nature. The outdoor enthusiast that wants to enjoy their time in the outdoors won't be disappointed.

### Biking

Biking has become a popular sport for the outdoorsmen and outdoorswomen. Several of our WMAs, Choctaw WMA for instance, offer biking trails for the serious bikers.

## Wildlife Management Areas

One does not have to own land or even have access to private land for outdoor recreation. The Mississippi Wildlife Management Area (WMA) system is expansive and diverse. It includes 52 areas encompassing over 665,000 acres. Mississippi WMAs offer great opportunities for family and friends to enjoy outdoor activities such as hunting, fishing, trapping, bird watching, hiking, and wildlife viewing.

### What do you need?

All persons using a WMA, except those exempt from purchasing an annual hunting or fishing license, must carry on their person an annual statewide Wildlife Management Area User Permit. This permit is required in addition to the daily visitor use permit and any required license

and may be purchased wherever licenses are sold. Users are also exempt on lands owned by the U.S. Forest Service unless they are hunting, fishing, or trapping. If you are not sure who owns the land, you can visit our website at [www.mdwfp.com](http://www.mdwfp.com) or give us a call at 601-432-2199.

### Hunting Opportunities

WMAs offer opportunities to hunt a variety of wildlife species. While deer hunting is the leading use, there are many other resident and migratory game species available to pursue. Wild turkey, squirrel, rabbit, quail, raccoon, opossum, fox, and bobcat are among the resident species traditionally hunted on WMAs. Ducks, geese, and doves are the most commonly hunted migratory species, but several other migratory game birds may be taken too.

## Fishing Opportunities

Many WMAs have great opportunities for fishing. There are several areas with fishing hot spots within the WMA boundary. Areas like Ward Bayou and Marion County WMAs are prime examples of WMAs with excellent fishing spots.

### Youth Hunting Opportunities

Youth are the key to continuing our hunting heritage as well as promoting wildlife conservation in years to come. It is important to provide youth the opportunity to be outdoors and have positive hunting experiences. Many WMAs offer special youth hunting opportunities. Most WMAs provide special or additional hunts for youth to pursue wild turkey, white-tailed deer, squirrels, dove, and waterfowl.
