Mark the pelt lengths on your boards

In order to achieve the best results we recommend that you mark the pelt sizes on each board.

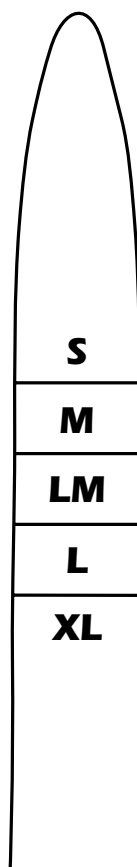

Beaver		
Size	Lenght	Lenght
XXXL	Over 70"	Over 178 cm
XXL	65" - 70"	165 - 178 cm
XL	60" - 65"	152.5 - 165 cm
LGE	55" - 60"	140 - 152.5 cm
LM	51" - 55"	129.5 - 140 cm
MED	47" - 51"	119 - 129.5 cm
SM	42" - 47"	107 - 119 cm
CUB	Under 42"	Under 107 cm

This will allow you to properly stretch each pelt at the best possible size. Do not over stretch the pelt, rather stretch to achieve the proper length. Remember that pelts shrink slightly in length when they dry. Pinning something directly on the line will result in losing a size. Ensure you pin over the line, enough so that it retains its size. You can not make a medium pelt into a large pelt, or make a large pelt into an extra-large pelt, without over stretching. This tip is about pinning borderline skins.
