

Mahannah WMA Waterfowl Draw Hunting Procedures

- Hunt days are Mondays, Wednesdays, and Saturdays
- 15 reservation positions are allocated before the hunt day through an online draw (these positions are the units in which we have complete water control)
- All reservations are for a 1-day hunt
- There are up to 32 total available hunting positions (depending on water availability)
- Reservation holders draw first from numbered dowels that represent the number of reservation holders present for that day
- After reservation holders draw, dowels are added until there are enough dowels for all stand-by parties to draw
- Reservation holders then select their hunting positions starting with the lowest number first
- Stand-by hunters will then select from the remaining hunting positions starting with the lowest number first
- Draw Time: 5:00am
- If reservation holders fail to check in by 5:00am, they risk losing their spot to another hunting party if all hunting positions are filled
- Shooting time ends at 12:00 noon
- Guests: 3 (Total party of 4)
