Fishing Tips

Largemouth Bass

- Target main lake points and creek channels with Carolina/Texas-rigged plastics, jigs, or crankbaits.
- In the spring, target coves with spinner baits, T-rigged lizards, and weightless soft plastics.

Crappie

- In the spring, target brush along the deeper banks with small jigs or live bait under a cork.
- Target suspended fish near the dam and other deep water refuges.

Bream

- Fish gravel beds near the boat ramp and campground.

Catfish

- Target creek channels and deeper areas just off earthen piers.

Below: Lake Lamar Bruce record fish. Record fish must be weighed and verified by the lake manager, lake supervisor, or fisheries biologist. Anglers who catch a lake record fish will receive a certificate acknowledging their catch. There is no minimum weight for any open lake record.

Fish Species	Weight (pounds)	Angler	Date Caught
Largemouth Bass*	13.54	Scott Lewis and Channing Davis	2-23-2020

Left: Eighty-three percent of the anglers interviewed had not been previously interviewed by MDWFP in 2023. Thirty-eight percent of anglers used a forward-facing sonar while fishing, and only seven percent of anglers had any interest in being able to keep one walleye per day. Eighty percent of anglers interviewed said they had a positive outlook for the fishing at Lake Lamar Bruce.

Above: Percentage of anglers targeting Largemouth Bass (LMB), bream, catfish and crappie at Lake Lamar Bruce based on spring creel surveys. Bass angling has steadily increased over the last four years, while bream fishing has declined. Bream includes both Bluegill and Redear Sunfish.

Below: Angler catch rates (fish caught per hour) during spring creel surveys. Angler catch rates have steadily declined for bream, but bass catch rates showed an uptick in 2023. No crappie or catfish anglers were creeled in 2023.
